WORK EXPERIENCE

OISIS INFOBYTE   **March 2023 - April 2023**
Graphic Design Intern

Gained experience in using design software such as Adobe Photoshop, Illustrator, and InDesign. Supported the design team with research and brainstorming sessions, contributing ideas for visual concepts and layouts. Learned about the design process, including client requirements, feedback, and revisions

Austere Systems Pvt Ltd   **24th June 2024 - 7th Aug 2024**
Software Developer Intern

Developed an e-commerce website for a brand from scratch, contributing to both frontend and backend functionalities. Utilized technologies such as HTML, CSS, JavaScript, PHP, and Laravel to build and maintain the website. Collaborated with the design team to ensure a seamless user experience and responsive design. Contributed to a live web development project for a chemist store, focusing on backend development and database management.

PROJECTS

Space Exploration Simulation

Educational space exploration platform that enables users to learn about celestial bodies, stay updated on space news and explore curated images and information about cosmos in an immersive and engaging way.

Foogaa

Contributed to a live web development project for a chemist store, focusing on backend development and database management. Collaborated with the design team to ensure a seamless user experience and responsive design.

Personal Finance Tracker

Developed a web-based application using Laravel, MySQL, HTML, CSS, and JavaScript to manage and track personal finances. Implemented features like user authentication, CRUD operations for income and expenses, responsive UI, and secure data handling. Optimized database queries for performance and designed an intuitive interface to provide users with actionable insights into their financial activities.

CERTIFICATES

Web Development Certification   **February 2023**
Acmegrade
